General Comment

Please leave our 401Ks and IRAs alone. Unlike the government, some of us actually can balance a budget and manage to save a little something. I do not need the Federal government handling my finances for me or making up rules for my financial adviser that's going to limit my choices and lessen the amount i can save for retirement. I would like to save enough to retire sometime before I die. Obamacare did enough damage screwing up my health care choices.
